KEROSENE OIL,	PAINTS AND OILS,

Which we offer at the lowest Cash Prices, and are determined not to be undersold.
R. H. McDONALD & CO., SAN FRANCISCO, CAL.

For Sale.

OUR DRUG BUSINESS, located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the said business.

We are the Oldest Drug firm on the Pacific Coast and be only one, continuous under the same proprietors since 1848, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never fore offered.

For particulars enquire of
R. H. McDONALD &CO.,
R. H. McDONALD, } Wholesale Drug sts,
J. C. SPENCER. } San Francisco

N.B. Until a sale is made we shall continuecour importations and keep a large stock of fresh goods constantly on hand, and sell at prices to defy competition

A GREAT MEDICAL DISCOVERY
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

Public Notice to Mariners.

I AM DIRECTED BY THE HON THE Minister of Marine and Fisheries of the Dominion of Canada to publish the following Notice to Mariners, which has been issued by the Hydrographer to the Admiralty, London.
H. W. PEARSE.
Lands and Works Department,
Victoria, B C, Oct 23, 1871.

Notice to Mariners.
(No. 68.)
NORTH AMERICA.—WEST COAST.
Buoys at the Entrance of San Francisco Harbor.

INFORMATION HAS BEEN RECEIVED that three Fairway Buoys have been placed as a guide for vessels crossing the Bar and entering San Francisco Harbour.
These buoys are placed in line with Fort Point, bearing N E ¾ E.
Outer Buoy—Black and White, is outside the Bar in 13½ fathoms, with the Middle Buoy bearing N E ¾ E, 5¼ miles and Fort Point 10 miles distant.
Middle Buoy—Black and White, is in 9¾ fathoms with the Inner Buoy bearing N E, ¾ E, 2 ¾ miles, and Fort Point 4¾ miles distant.
Inner Buoy—Black and White, is in 20 fathoms, between Bonita and Lobos Points, with Fort Point bearing N E, ¾ E, 2 1-0 miles.
Four Fathom Bank—Also, that the four fathom bank is marked by two black buoys The buoy off the west end lies W by S ¾ S, 3¾ miles from the buoy off the east end of the bank. The east buoy is in 5½ fathoms, W by S ¾ S, 1½ miles from Bonita Point.
It is said the west buoy cannot be depended on as remaining in position;
(All bearings are magnetic. Variation 15° 50' Easterly in 1871.)
By command of their Lordships,
GEO. HENRY RICHARDS,
Hydrographer.
Hydrographic Office, Admiralty, London,

MR. HELMCKEN

MAY BE CONSULTED AT HIS OFFICE Victoria between the hours of 9 and 12 in the morning at his residence, James Bay, in the evening.
oc4

A Mischievous Statement Refuted.

IN LAST SUNDAY "COLONIST" AND succeeding issues appeared a card addressed to Bricklayers in which inducements are held out to that branch of trade to come to Victoria for work. The card is mendacious and mischievous. There is not at Victoria sufficient work to keep fully employed the Bricklayers already here, who during the past two years have not been more than half employed, while others have had to go to San Francisco to obtain the work they could not get here.
Oct 12, 1871, BRICKLAYERS.

THE BRITISH COLONIST.

Saturday Morning, Nov'r 4, 1871.

The Treaty of Washington—Its Moral Influence.

While yet two of the most powerful nations were engaged in one of the deadliest wars known in history—the result of a quarrel over a glass of Ems water—Great Britain and the United States of America were referring to the peaceful arbitrament of a Commission some of the most serious and perplexing disputes and complications of modern times. The readers of this journal have seen by yesterday morning's Exclusive Dispatches that, at a recent meeting at Manchester, Earl Granville pointed to the happy results already visible of the rational course adopted by the two great Anglo-Saxon nations. Amongst the happy fruits of that wise policy he accounts the alacrity with which the late pitiful raid on Manitoba, by a few deluded Irishmen, has been put put down by the United States Government, and the hearty sympathy created throughout England on account of the terrible Chicago calamity. It is not alone in England that these latter fruits are visible. In the Dominion of Canada the response has been scarcely less marked. There is hardly a town throughout the whole Dominion in which subscription lists for the relief of Chicago sufferers had not been opened ere yet the smoke-cloud had lifted from the ill-fated city. Montreal, the commercial metropolis, led off with its "first instalment" of $33,000. Next came Toronto with its $20,000. Hamilton with its $7,000, London with its $4,000, and so on. This is as it should be, as it should ever have been, with the two great branches of the Anglo-Saxon family, having the same grand objects of political and religious liberty and progress in view. It will, indeed, be a happy circumstance if the Treaty of Washington should be the means of establishing permanent amicable relations between these two peoples, even if its moral influence should never find a wider range. But the moral influence of the Treaty is certain to extend beyond the two nations being parties to it. Earl Granville very justly pointed to the effect which he thinks the example thus set by Great Britain and the United States will have with regard to the settlement of international disputes; and it can hardly be doubted that the effect will be very important. The two great powers have shown how internal differences, and that, too, of the most serious, complex and irritating nature, can be settled in a peaceful, national and Christian manner. In the face of this, the nations who fly to arms on the most trivial pretexts will have to bear an additional amount of odium—will incur the moral condemnation of the civilized world. Is it too much to hope that this same Treaty will be the beginning of the end of war as a means of settling disputes between civilized nations?

Camp V, C P R Survey.

Oct 30th, 1871.

EDITOR BRITISH COLONIST.—

The facilities in camp are not great. But now that we have returned to Yale, I will write as partly promised. First to correct an error in the printing of my last; E Leigh, whose name occurs twice, is not an assistant leveller; for his name read Mr Benson.

You have learnt by telegraph that we completed our work at Lytton on 14th inst. Our celebration dinner differed in nothing from any ordinary one, but the addition of "plum duff;" it might be thought we were indulging. We left Boothroyd's soon after my last letter. The leading feature of the neighborhood was the growth of red wild cherries of small size but for the most part intense bitterness; in some places they appeared to cover acres of ground. Thep are almost invariably surrounded by a wide fringe of wild filberts; one species of cherry, rather larger, are very palatable and juicy: they are black

We left Boothroyd's on the 4th Oct, and camped next at G Salter's, about 41 miles from Yale. Here a laughable incident occurred; one of our animals, evidently a cayoosh, refused to work in the waggon. He was accordingly loaded with a pack; equally novel to this situation of things he at once bolted, and after making a dead set at one of the Indians, overbalanced himself and showed two clean pairs of heels, in the very opposite sense to that generally conveyed. We shifted from Salter's on the 7th, our work as usual, being ahead of us, to Siskiyou flat. We here found a crippled Indian, almost reduced to a living anatomy; he had broken or dislocated his hip some two years ago and was lying helpless and hopeless in a chinkey log cabin at the roadside. We gave him a trifle and got him some blankets at Lytton. Some few Indians occasionally fed him. We changed the name from "kicking horse" (in the vernacular) to Windy flat from the weather we experienced and the residents say they always find it the same. As an instance of its strength, the glass cover and magnetic needle were blown off the transit (fortunately without facture) on being carried round one of the most exposed points of the flat as regards the river. The whole stretch of flat was that day almost intolerable and rendered difficult for surveying. Thence forward till our return down past the same place, wind, wind was the order of the day. The day before completing our survey into Lytton the same prevailing wind blew furiously round the sandhills and slopes on the Victoria side of the "town." To survey continuously in such weather would, I think, try the endurance of most men. Some delay was experienced at one of the stations in taking the angles. In vain the Transit lowered his telescope and swept the limited field of view. His flagman had disappeared with his staff down a slide, but soon scrambled up, fortunately with only a few bruises. And so without incident we reached Lytton. Our stay was but short, although we camped there five nights. We stayed, excepting Sunday, but half a day after our work was done. We noticed the dark green waters of the Thompson flowing into the Fraser with such a current that its waters forced back its muddy stream for half a mile in length, keeping its own tint on one side of the river.

We attended the Episcopalian service and were just too late to witness the ceremony of commencing the new church, having met the Bishop on the road up. On Monday, 16th, we started for Yale on the down trip, which we performed in four days, and camped three quarters of a mile out of Yale.

On Monday, 23d, started to work as usual,—our point of departure being the Toll Gate at Yale—from which we commenced on leaving for Lytton. We have now done from six to seven miles on our downward trip on the way to Hope, and shift camp to-day. We have dismissed our pack train and will use canoes for some time. We have left a windy country and are now in a decidedly rainy one. With the exception of two Sundays and one Saturday we have not had twenty-four hours without rain.

One feature of the road down I must not not omit, small as it is. The water is unfailing at most roadside houses. Troughs for cattle are supplied by running streams. It is not uncommon to find a perennial flow of water through a tap on the counter, fed from the same source. I need not say the quality is excellent. IN TRANSITU.

REPLY.

To James Trimble, A Rocke Robertson, B P Griffin, G C Gerow, D Spencer, Richard Lewis, Esqrs, and other signers of the foregoing requisition.

GENTLEMEN,—I beg to return you my sincere thanks for the confidence you repose in me, as expressed by your desire that I should be Mayor of the City for the ensuing year.

I look on the office as one of honor and importance, yet I had no intention of soliciting your support for that or any other office at present; but after receiving a requisition like the one now before me, signed by so many influential and respectable citizens, I with pleasure accede to your wishes.

If elected, my aim will be to serve you faithfully and impartially.

I have the honor to be, Gentlemen,
Your most obedient servant,
W. J. MACDONALD.

Late Telegrams appearing in any other paper are copied without credit 24 hours after they have appeared in the British Colonist. The circulation of the British Colonist being double that of any other Paper Published in British Columbia, it offers the best medium to Advertisers.

Victory for the Ratepayers at Last!

The proceedings of the City Council last evening were of an extraordinary character. An attempt was made by the Street Committee to question the correctness of Mr Gastineau's able report on the manner in which street contracts have been carried out. Mr Stephens, C E, was called to the bar and questioned as to Mr Gastineau's report, which he endorsed in every particular! Mr Mitchell then moved that that portion of the Street Committee's report be struck out. Mr McMillan—who seems at last to have had his eyes opened to what has been going on around him—seconded and supported Mr Mitchell's motion. Mr Carey, in piteous tones, implored the Council not to abandon him to merciless and infamous men (meaning the COLONIST staff) but Mr McMillan was inexorable. The motion to strike out was carried by the casting vote of the Mayor, and the Street Committee stand condemned by the report of their own engineer! Mr Heathorn—who, like an honorable man, demanded an investigation into his acts, which was refused—was not present, but had he been there he would doubtless have supported Mr Mitchell's motion. This action of the Council settles the matter. THE COLONIST is sustained in all its charges, and the Ratepayers have only to do their whole duty on Thursday next and the moral atmosphere of Bread street will become as sweet and pure as it was before some of the present Councillors secured seats at the Board.

SHOOTING A COW.—Charles Dupont, a farmer residing on the Cadboro Bay Road, back of the Willows, appeared before the Police Court yesterday on a charge of feloniously shooting a cow, the property of Michael Finnerty, on the night of the 30th of October. The evidence in the case was as follows: Finnerty, on the morning of the 31st Oct, found his cow in the vicinity of Dupont's premises with a wound in her body resembling that of a wound from a bullet, and suspecting Dupont had committed the act, he called on him, when he denied the act. Finnerty afterwards called on Dupont with Richard Baker, when Dupont denied it again, but after being told that he was seen to shoot the cow by some Indians he owned that he had done so, and gave as a reason that Finnerty's cattle had destroyed his crops. The facts as above stated were corroborated by several witnesses. The defence proved by witnesses that an attempt was made to compromise the felony by Finnerty taking the carcase of the dead cow and disposing of it and Dupont to pay the deficiency, valuing the cow at $60. This arrangement, however, was not carried out and the complainant brought the matter to the Court. The case occupied several hours and finally resulted in being sent up to the Assize, bail being offered to the prisoner on good security. Mr Drake for the prosecution, and Mr Bishop for the defence.

A MISCHIEVOUS REPORT.—A few days ago a report appeared in the *Colonist* to the effect that the foot and mouth disease had broken out among the stock in Comox district. We have made enquiry, as well as others, and we learn there is no truth whatever in the statement, and if left uncontradicted is calculated to do serious injury, not only to the district, but to the Province.—*Standard* of yesterday.

In reply to the above we would state that the information was obtained from one of the most responsible gentlemen of Comox district, whose letter is still in our possession. We should be glad to know that our correspondent is mistaken; but to satisfy us that he is mistaken would require stronger evidence than that of an editor whose knowledge of natural history is so extensive that he stoutly contends that female caterpillars lay eggs; who lately informed his constituents that cows were better milked "diagonally" than across, and that the guano is a fine bird easily caught by throwing salt upon its tail. A gentleman possessed of such varied information would scarcely distinguish the hoof and mouth disease from a desperate case of botts.

ST ANDREW'S AND CALEDONIAN SOCIETY. At a meeting of this Society held last evening, the following officers were elected for the ensuing year: President—R P Rithet. Vice Presidents—Thomas Russell and Alexander Young. Treasurer—Donald McKay. Secretaries—John Ross and J Liddle. Chaplain—Rev S McGregor. Physician—James Trimble. Directors—J Hutcheson, John Stewart, John Russell, R Lawson, G Wilson, J Robertson, J Muirhead. Auditors—John Russell, A Young, J Hutcheson. Warden—J Ennis. Assistant Warden—H McKenzie.

PAY your city rates and secure a vote for Mayor and Councillors. The present is the most important crisis in the history of our city and it would be a misfortune, indeed, if men who would perpetuate the abuses of the present Council were allowed to slip in through the neglect of citizens to qualify themselves for voting. Pay up and see that your name is on the voter's register

MAKE TICKETS.—Let the ratepayers of each Ward select two good men to represent them in the City Council, and, laying aside personal feeling or prejudice, vote for them.

POLICE COURT.—A brace of Braves were yesterday fined five shillings each for getting drunk.

Municipal Council.

FRIDAY, Nov 3, 1871.

The Council met at 8:30 o'clock. Present, His Worship the Mayor, and Councillors Gerow, Carey, McMillan, Mitchell.

VANCOUVER STREET.

The time for receiving tenders for Vancouver street was extended.

CITY ELECTIONS.

The following applications were read for appointment of Returning Officers for the election of Mayor and Councillors:

E Harrison, Yates street; Thos W Lineker, James Bay; P McFarland, Johnson street; Geo Hemmingway, Yates street.

On motion of Coun Gerow the appointments were made as follows:

E Harrison and George Hemmingway for Yates street Ward; Thomas W Lineker for James Bay Ward; P McFarland for Johnson street.

DALLAS ROAD.

A petition was read from a number of residents on Dallas road, praying to be relieved from the order of the Council to build a new sidewalk and stating that they are willing to repair the existing sidewalk which will answer all purposes at present.

In response to the petition Coun Carey moved that the property owners on Dallas road be required forthwith to lay down a sidewalk 6 feet wide, with planks 1½ inches thick resting on three sleepers 4 inches square. Seconded by Coun McMillan and carried.

Accounts from J W Williams for hauling gravel on streets $46 50. From Geo Stelly for grading and graveling Blanchard street and View street $645. From R S Grant for labor on sundry streets $43. Severally referred to the Finance Com.

QUADRA STREET.

A communication from J Spelde, relating to Quadra street, was referred to Street Com.

JOHNSON STREET.

A petition from the residents on Johnson street, calling attention to the sanitary condition of that street and asking to have the street gravelled.

Coun Carey moved that tenders be called for gravelling that portion of Johnson street east of Quadra, 20 feet wide and 6 inches deep. Carried.

MR GASTINEAU'S REPORT.

Council went into Committee of the Whole on the report of John Gastineau on streets, His Worship in the Chair.

The report of the Street Com. was read by the Chairman, the purport of which was a denial of the statements in Mr Gastineau's report. The report was taken up section by section.

Coun Carey said Mr Gastineau was not instructed to inspect Blanchard street; that street was made in 1869 and the present Council had nothing to do with it.

The Chairman then read the first section of the report, which was to the effect that the first section in Gastineau's report was antagonistic to the former reports of the street surveyors and was consequently unreliable. The following is the section in Gastineau's report:

'1st—On the contract between Rae and Fort streets. The contract section is incorrect. The upper red line on the accompanying plan shows a gradient of 1 in 250. The lower one—a level line with the level of Fort street, and the intermediate line is what I presume to be the intention of the contract section. And taking such to be the case, at point A the surface of the gravel is a foot below the proper height and is generally low to Fort street. I consider the grade given altogether too high, for not only has unnecessary work been executed on Blanchard street, but it has entailed unnecessary work on Kane street, east and west of Blanchard.'

Mr Stephens, who had been invited to attend, was asked by the Mayor what course he would have pursued had he received the instructions given to Mr Gastineau. He replied that he should have taken his grade from Rae street, as Mr Gastineau had done and would probably have obtained the same results.

Coun Carey, in a long-winded and excited harangue, tried to convince Mr Stephens that Rae street was not the proper point from which to take the grade.

His Worship thought that Mr Gastineau's report was fully sustained by Mr Stephens, and he could not accept the report of the Street Com with the clause under consideration.

Coun Carey said he believed the sole object of Mr Gastineau was to show that all the grading done by Mr Green and former surveyors was wrong, and designing and infamous men were now making use of the report to saddle the blame on the Council.

His Worship said—I do not see why Mr Gastineau should be blamed or censured for differing with Mr Green. A surveyor would look upon it as a piece of impertinence to be told that he must make his survey to meet your views. Suppose, for the sake of argument, that as you say Mr Green was right and Mr Gastineau wrong, why should this Council—not being competent judges in a scientific matter of this kind—undertake to condemn Mr Gastineau because he differed from Mr Green. Men of all professions differ in their opinions.

Coun Mitchell moved that the section of the Street Committee's report under consideration be struck out.

Coun Carey said if that was struck out a great injustice would be done to the Street Com, and they would be placed at the mercy of a merciless Press.

Coun McMillan seconded the motion on the ground that the Council were not composed of scientific and professional men and were not competent to pass judgment on the survey of Mr Gastineau.

Coun Gerow said he looked upon the report of Mr Gastineau as incorrect and not worthy to be credited.

Coun Carey, becoming very excited, thought it was unfair to the Street Committee, who at least ought to have the chance of their report being examined by a committee of scientific men. He would move the postponement of the consideration.

His Worship said the motion was out of order whilst a motion was already pending.

The question was then taken on Mr Mitchell's motion, which was carried by the casting vote of the Chairman—Carey and Gerow voting nay.

The Committee then rose and reported progress.

H.M.S.SCYLLA.—A rumor of a mutiny on board H M S Scylla, now at or near Valparaiso, has prevailed in town for some days, but its trustworthiness is not vouched for. Capt Herbert was lately succeeded by Capt Boxer, who is now in command of the Scylla.

CITY AUDIT AND ACCOUNTS.—A correspondent wants to know why a statement of the city accounts has not been published, and what has become of the Auditor's Report? These are pertinent questions.

DEER SHOT NEAR THE CITY LIMITS.—Yesterday morning a gentleman residing in the suburbs, while looking out of his bedroom window, espied a deer browsing on the rocks near his house. As there were no firearms in his own house he ran to a neighbor's and borrowed a shot gun, loaded both barrels with slugs and hurried back. The animal, unsuspicious of impending death, was found near the spot where first seen and the gentleman blazed away. His aim was good and the deer fell mortally wounded. Scarce had the *amateur* sportsman time to congratulate himself upon his skill when he learned that the animal was the pet and playmate of the children of a gentleman who resides on Cadboro Bay road.

HEAVY BLOW.—Yesterday morning the wind blew great guns from the Southeast and the Enterprise, which sailed at 9 o'clock for New Westminster was unable to get around Trial Island. The waves dashed completely over the steamer which was tossed about like a cork. The passengers were all seasick, and at length Capt Swanson put back and returned to the wharf. The North Pacific, announced to sail at noon for Puget Sound was, detained by the blow and will sail at 4 o'clock this morning. After blowing till 2 o'clock from the southeast the wind chopped round suddenly and blew stiffly from the West for the remdiander of the day.

SAILED.—The H B Co's bark Princess Royal sailed from her anchorage at 9½ o'clock yesterday moning, expecting to get clear of the Straits before dark. The wind, however, suddenly hauled round to the Southwest and the bark is said to have returned to her anchorage last evening.

H.M.S.SCOUT will be due here about the 20th, although a report prevails that she has been ordered to Valparaiso.

THE ZEALOUS will sail about the 30th November—never to return. Her timbers are rotten and she will probably be broken up.

SLIP OF THE *PEN*.—Yesterday we said that the Prince Alfred sailed on Monday. We meant to say on *Wednesday*.

By Electric Telegraph

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NGHT'S DISPATCHES.

Eastern States.

NEW YORK, Nov 2—The Roosevelt Hospital, on Fifth street, was opened to-day. It is the gift of James H Roosevelt, and has cost more than a million of dollars.

At a meeting of the Chamber of Commerce this evening a Committee report was received declaring it to be inexpedient to subsidize a line of steamers to Australia. The report was discussed at some length without action. A resolution was adopted to cause inquiry to be made whether any member of the Board has been concerned in the city frauds, and if so what action is necessary. The reports strongly urge the election of Ex Governor Seymour to the Assembly from the 19th District.

Cooper Institute was filled to night with citizens at the call of a Committee of 70 to ratify the Reform ticket. Hon Hibby presided and after relating the corrupt practices by which the Tammany Ring had robbed the city of twenty million dollars, introduced Mr Joseph A Cheote who announced that all anti-Tammany organizations had combined on candidates, and by united action they would surely elect a good number of them. The Hon S J Dillon and Wm M Evarts followed in eloquent terms and called on all good citizens to give up all business on election day, and use their united efforts to rid the city of a gang of robbers.

At a meeting of the Board of Supervisors, to-day, Mayor Hall submitted a resolution which was adopted dividing the election districts and designating certain Tammany officials to receive the election returns. This action is thought to be in the interest of Tammany.

There are no accounts of Ingersoll.

The non arrival of the Grand Duke Alexis keeps the Committee of Reception in a ferment. If the Duke arrives this week the military reception which was proposed will be deferred, as the law prohibits any military parades in the city five days preceding an election.

The Board of Trade have agreed to send ten thousand dollars of the recent contabution, which was intended for Chicago, to Wisconsin and Michigan.

Charles O'Connor states that no suits will be commenced against Mayor Hall before the election.

The Mercantile Insurance Company has suspended.

California.

SAN FRANCISCO, Nov 2—Passengers for Victoria per Prince Alfred:—Mrs Bowden, Mrs Frazer, J Townsend, George Musters, D K Barry, H Rhodes, John Robertson, H C Pierce J P Ellis, H S Allen, Louis Frazer, A H Tunch, Col C H Larrabee and wife, Dr J S Houghton, wife and child, Miss Houghton, C J Fitzhugh, and twenty-seven others in the steerage.

Every seven years, physiologists say, the human body is entirely changed and renewed. Every moment of our lives, every part of our bodies is wearing out and being built up anew of fresh matter. This work is accomplished by the blood, which goes through every part. But if the blood becomes weak, or vitiated, and does not perform its work properly, the system is actually poisoned by the worn-out matter, clogging the vital organs, instead of leaving the body. For dyspepsia, biliousness, kidney, skin and liver troubles, fevers, and all diseases arising from vitiated blood, DR WALKER'S CALIFORNIA VINEGAR BITTERS are a sovereign remedy.

An Unprotected System.

Do not fancy because you feel strong that you are impregnable to sickness. Whole neighbourhoods are frequently prostrated at this season by malarious fevers. Vigorous muscles and strong sinews, broad shoulders, and sound lungs are not defence against the mephitic vapors of autumn. Frames which have withstood the summer heat may succumb now. Many an athletic man, whose family depends for its support on his industry, now lies prostrate, weak and helpless as a babe, under the periodical assaults of chills and fever, or bilious remittant fever. This could not be if all were wise enough to provide against such a contigency, by toning and fortifying the system with Hostetter's Stomach Bitters. This approved vegetable tonic is absolutely harmless, so that it is sheer folly not to take it as a safeguard at a season when diseases of the liver the stomach, the bowels, and indeed all the visceral organs are generally pervalent. To keep the system in order and insure health, or to put it in order when this preaution has been neglected is the duty of every human being who values life. For both these purposes Hostetter's Bitters is designed and answers both. Petty local dealers are endeavoring in many parts of the country to substitute preparations made of impure and dangerous materials in its stead. Give them a wide berth. They are prepared by unskilful experimenters, who want to turn a penny at the expense of the public health.

The Horror in the Clouds.

THE AWFUL DEATH OF PROFESSOR WILBUR — FALLING A MILE FROM A BALLOON — THE PARTICULARS OF THE SHOCKING DISASTER IN PAOLI, IND.

Paoli [Ind] Correspondence of the World.

It was the gayest day of the week at the fair; everybody was in holiday dress, the girls looked their prettiest, the farmers their most florid, and the country beaus were benecticd and invested in colors vying not only with the rainbow but with the utmost powers of aniline. The centre of attraction was of course, the enclosed space where the balloon was to be inflated, about which gathered an eager crowd looking at everything connected with the expected event, studying the ropes, peering about to find where the gas was to come, and pestering the amiable professor with questions as to how the gas was made, what made the balloon go up and other things of the sort. The professor laughed good naturedly, explained as much as possible and everybody was jolly in the anticipation of the—to them most unusual of things—balloon ascension.

At 4 o'clock in the afternoon the inflation of balloon was commenced, and as the bag swelled out almost to bursting and struggled to be free, everybody was on the *qui vive*—those remote from the spot straining their necks, climbing into carriages and even upon the fences to see into the car. It had been announced that the Editor of the Orange County *Union* would accompany Prof Wilbur in his ascent, and great things were expected from the report which his well known ability as a descriptive writer gave every reason to believe would be forthcoming in the next issue of his newspaper. I was standing beside the professor, laughing and holding a dis-jointed conversation with him, for he was busy with preparations for his flight. He had just nodded his head and said laughingly, "Well, good bye, old fellow, I'll see you again soon." Then Mr Knapp stepped into the car, and the professor, who had hold of the rope fastening the car to the body of the balloon, shouted "Let go!"

But he had spoken too soon and was unable to reach the car, but still unwisely kept the rope in his hand and endeavored to climb to his place, succeeding only so far as to get one arm over the rim of the basket, where he hung dangling and struggling. His motions and the fact that the basket came in contact with a rope which had fastened the balloon to the earth while it was being inflated, upset the car when it was about 25 feet from the ground and Mr Knapp fell stunned to the earth. But there was no time to look after him, for terror held every one spell bound. A shout of admiration went up from those who were too far distant from the scene to know that an accident had befallen the adventurers, and who supposed the ascent was being made *sans contretemps*.

But to those in the immediate vicinity of the car the sight was an awful one and for a moment everybody seemed paralyzed with terror and stood rooted to the spot without uttering cry or word. The balloon, lightened by the fall of Mr Knapp, shot upward with fearfully increased velocity and a scream of terror which chilled the blood of the hearers came down from the upper air, where the doomed aeronaut burg utterly helpless of escaping death. At my side stood a woman who as I afterwards heard, was the professor's wife. Her eyes seemed bursting from their sockets and her face was pallid and ghastly with fear. She clutched the air as if for support and with one hand she grasped my arm, still looking upward at the balloon, which, swifter than an arrow, shot through the air. Up, up it went, growing smaller and smaller in its flight, till at last it gave a sudden start and shot yet faster through the clouds.

Then a speck was seen far up in the air, growing larger and larger and larger as it fell. 'Oh, my God!' cried the woman, who clung to me with an iron grasp, 'he will die—he will be killed!' Yet her eyes remained fixed upon that falling body. At first it looked like the stick of a rocket; then it was doubled up like a ball; then seemed to unfold and whirl about with a gyratory motion, with arms and legs extended. It seemed and age while the man was falling, for before he loosened his grasp the balloon must have been a mile from the earth—and what an age to that poor wife who watched her husband rushing towards her and death with the speed of light. The descent was made in sixty seconds.

When about half a mile from the ground his body ceased its gyratory motion, instead assumed a perpendicular position and came down head first. It struck the earth some distance from us, and then rebounded, falling again within a few feet of where it struck. Then, from paralyzed fear the crowd broke forth into shrieks of terror, women ran wildly about screaming and actually tearing their hair, and a rush was made for the spot where the man had struck the ground. There was an indentation no less than eight or ten inches deep, filled with blood and brains which had burst from the skull when, like a cannon ball let drop from an immense height, it crushed into the earth. The concussion is said to have been heard by residents of Paoli, half a mile distant.

The Professor's hat, which came off a few seconds before he started, fell within four feet from him shortly after he struck the ground, he having passed it about midway down.

The balloon rose to an immense height and taking a northwesterly direction landed some three miles from the scene of the disaster.

The dead body was taken up and carried to to the Albert House, where the poor wife, who had so often safely traversed the air with her husband, cared for it.

Two thousand tickets, at $10 each, have been issued for the grand ball to the Grand Duke Alexis, in New York.

AT a meeting of Fenians at Jones' Wood, New York, the action of O'Neil in the late raid on Manitoba was strongly denounced.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hote and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

EMINENT CUTLERS.—Among the names of the most prominent manufacturers of cutlery are found those of Wostenholm, Mappin, Crooks, Harrison and JOSEPH RODGERS & SONS The latter has for a series of years held the prestige for excellence, and has been awarded the prizes at the Industrial Exhibitions; and at present the sole importers in this Province are T N HIBBEN & Co. *

MR C A NOLTEMIER has returned from San Francisco with a splendid assortment of boots and shoes of the latest styles, which he will sell at low prices. Boots made to order and warranted to fit. Repairing neatly done.—Government street, next to the St Nicholas Hotel. *

PIMPLES, BLOTCHES.

and roughness of the skin generally arise from depraved or vitiated humors. Bristol's Sarsaparilla is the best of all known purifiers of the blood and humors. This unfailing detergent neutralizes the poison, and occasional doses of Bristol's Sugar coated Pills, taken at the same time, purge out the unhealthy secretions insuring a smooth, oft, white, soft skin

NEW LIFE,

When the mind and body are tired by over-exertion, or by long study, a bath, in which has been mixed a half-bottle of MURRAY & LANMAN'S, FLORIDA WATER, will re-invigorate the physical powers, and impart a delightful buoyancy and earnss to the mind.

☞To prevent disappointment always ask for, the Florida Water prepared by Lanman & Kemp New York, there being worthless counterfeits posessing none of the above properties.

By Order of the Commander-in-Chief,
S. J. SPARK,
oc31 Paymaster in Charge

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentry Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most eminent clergymen, most skilful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated they are easy to take, and being purely vegetable, they are perfectly harmless.

JOSEPH GILLOTT'S STEEL PENS. Sold by all Dealers throughout the World.

Betts's Capsule Patent

TO PREVENT INFRINGEMENTS, NOTICE IS HEREBY GIVEN, that BETTS'S NAME is ON EVERY CAPSULE he makes for the principle merchants in England and France, thus enabling vendor, purchaser and consumer not only to identify the genuineness of the Capsule, but likewise the contents of the vessel to which it is applied. The Lord Chancellor, in his judgment, said that the capsules are not used merely for the purpose of ornamenting, but that they are serviceable in protecting the wine from injury and insuring its genuineness.

Ayer's Cherry Pectoral.

FOR DISEASES OF THE THROAT AND LUNGS, SUCH AS COUGHS, COLDS, WHOOPING COUGH, BRONCHITIS, ASTHMA AND CONSUMPTION:

The few compositions which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that be made by medical skill. Indeed the CHERRY PECTORAL has really robbed these dangerous diseases of their terror to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by it timely use.

THE UNK WEED!

REMEDY

—OR—

OREGON

RHEUMATIC CURE.

HISTORY.

This Remedy is composed of the active principle of the Unk Weed—Eng. Thaspium Cordatum Origioni Lat.—Indigenous to Oregon Grows most abundantly and perfectly in Washington Co

PROPERTIES, ETC.

It contains an ACTIVE VOLATILE Principle, extracted by Ether, and a bitter TONIC Principle soluble in Alcohol.

MEDICAL PROPERTIES AND USES.

It is the most sure and speedy cure for

Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds

That was ever introduced in the Materia Medica. The UNK WEED REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

Powerful Tonic.

Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus building up and strengthening the system, while at the same time the volatile principle being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system

There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled rheumatic patient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent and in consequence heretofore incurable disease

Unlike these Medicines, already known, the UNK WEED REMEDY, though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong TONIC and recuperating element which admits of its continued use even by the most delicate and debilitated. Thus we have the combination for the first time of these two necessary elements in one remedy, which accounts for its superior and never failing curative effects in

Political.

Vancouver Island District.

To the Electors of Sooke, Lake, Saanich, Cowichan, Salt Spring, Nanaimo and Comox:

GENTLEMEN—While traveling through your district in July last I was the recipient of very great encouragement to offer myself as a candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my views on Dominional politics having a direct bearing upon the interests of British Columbia, which I shall do as briefly as possible

I shall be a staunch supporter of the present Government of Canada so long as that Government shall administer the affairs of the Dominion in general, and of this Province in particular, in a satisfactory manner.

Knowing the feasibility of the Canadian Pacific Railroad from personal observation along the greater part of the probable line of route, and having advocated such an enterprise in my "Overland Journal," published in Ontario, as well as on this coast for the past twelve years, I shall endeavor, by every means in my power, to bring that grand undertaking to a successful termination at Esquimalt or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolie labor, either on the Railroad or other Public Works and will strenuously resist any attempt in that direction

Should the Tariff problem not be solved by the Local Legislature, but a modification of the Canadian Tariff, in so far as agricultural produce is concerned, recommended, I shall make every possible effort to secure its adoption by the Dominion Parliament.

I am fully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Sooke to Comox, long before the reopening of Parliament. Should this, however, not be the case, I shall, if elected as your representative, see that every settlement is duly cared for in this important particular.

The subject of Immigration is one of great moment and shall always have my earnest support both in the House and elsewhere. With increased demand for agricultural produce, farm laborers will be required in every settlement. These will soon locate on unoccupied lands, together with men of small capital, and in their turn become producers. Their place will then have to be filled by others, so that a steady stream of immigrants from the Eastern provinces particularly would be the greatest possible boon to this portion of the Dominion.

The early commencement and completion of a Dry Dock at some Island port, and I think Nanaimo has a strong claim upon such a work, shall not be overlooked.

I shall advocate Vote by Ballot at municipal, Local and Federal Elections till that great reform becomes the law of the land.

Telegraphy, Lighthouses, Harbor Improvements, Hospitals, Asylums, Penitentiaries, Fisheries, Geological and other surveys, together with the Indian question and other subjects that will be continually presenting themselves, shall have my constant consideration and advocacy wherever conducive to the material prosperity of the province in general and my constituency in particular

I rest my claims upon your support, gentlemen, on my long residence in the Eastern Provinces and on this Coast—my intimate knowledge, from actual travel of the wants of every agricultural and nearly all the mining districts of the Province—my unswerving support of Confederation and the Railroad since '69, and my having no special connection with any particular interest, commercial, agricultural or mining. I am thus enabled to look upon them all from an independent and impartial standpoint; and in advocating their best interests to assist in raising this Province of almost illimitable resources to the proud elevation it will soon attain as the Western outlet of the Great Dominion.

I have the honor to be, Gentlemen,
Your obedient servant,
se12 JOHN JESSOP.

To the Electors of Vancouver Island District.

GENTLEMEN:—In response to the solicitation of a number prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, I have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I, as a candidate, should advert to at least some of them that more directly concern your interests. I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire South-Eastern Coast of the Island from Johnson Straits.

Under the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests during the next ten years. Should, however the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining and commercial interests of your district,

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a biweekly mail steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once and to erect others elsewhere as soon as possible, to ensure greater safety and certainty in navigating the Gulf.

With respect to the Indians I will urge that they be settled on Reservations, under the superintendence of Government agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country, and anything that I may be able to do to ensure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The fisheries along our coast promise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and Dominional character.

In conclusion, Gentlemen, if you should do me the honor to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best of my ability.

I have the honor to be, Gentlemen,
your obedient servant,
ROBERT WALLACE
Victoria B C, August 3d, 1871. au11

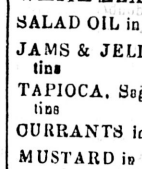
To the Unfortunate

New Remedies! New Remedies!

DR. GIBBON'S DISPENSARY



No 623 Kearney Street Corner Commercial, San Francisco, established in 1854, for the treament of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcerated Legs etc., successfully treated.

DR. GIBBON has the pleasure of anouncing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission is the consequence of self-abuse. The solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruption is about the face, hectic flushes, furred tongue fetid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon, case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

Address: DR. J. F. GIBBON,
no27 1y P O Box 1057, San Francisco, California.
